

Tosca Reno does EXTRA!

'AMBUSH CLEANSE' Segment airs March 7 as part of EXTRA! TV's lifestyle makeover series.

It's an exciting time for fitness celebrity model Tosca Reno, author of **The Eat-Clean Diet** series. "Filming with EXTRA! felt like I had made it to Hollywood. Stay tuned because it looks like we'll be heading back," said Reno.

Warner Brothers' EXTRA! puts the spotlight on **The Eat-Clean Diet** author whose diet recently made headlines when it drew the attention of Oscar-winning ladies Nicole Kidman and Halle Barry. "I'm thrilled that Tosca is doing this special on EXTRA! TV. She deserves it, and more," said Wendy Morley, senior production editor at Robert Kennedy Publishing. "It's not just that she works very hard, though she does. It's that she honestly cares so much about every single reader. She doesn't just want to sell books; she wants to help people really change their lives for the better, so they can achieve health and happiness and a long life alongside their loved ones." Morley also edited the successful **Eat-Clean Diet** series.

Reno's **The Eat-Clean Diet** series has earned itself a place on Amazon.com's Top 10 Bestselling Diet Books list, and it is used by personal trainers in the US, Canada and abroad to help their clients. A TV show documenting Reno's life as a mother, fitness model, businesswoman and author will air this spring on VIVA, W Network's new specialty television channel for women. "With her winning combination of caring, tenacity and common sense, along with her amazing looks, I have no doubt that this is just the beginning," said Morley.
